Editors Democrat-Gentlemen: For two days past we have had constant raine, and the waters poured down these hill-sides in torrents, the consequences of which were the close confinement of the men to their tents, plenty of mud, and an overflowing river, the result of which is a heavy lose to the Government in the way of stores, forage, camp equipage, ammunition, horses, &c. Nashville Banner's Account The Nashville Banner gives the following

graphic account of the result at Nashville of the loss of Fort Donelson:

Now for the effects of the loss of the fort upon this city. Early Sunday morning it was reported that Fort Donelson had surrendered, but it was not until between ten and eleven A. M that the rumors became general. In the meantime, the General Assembly had been hastily convered, and after a short session, adjourned to meet ln the city of Memphis on the 20th. The citizens, generally, unaware of any disaster to the Southern cause, were quietly repelring to church, when, however, they were met by the report that Fort Donelson had fallen, that a Federal army was already at Springfield, Robertson county, about twenty-five miles from this city, connected by railroad, and that the gunboa's had passed Clarksville on their way to this city. The sidden flight of the Governor and all the State officers, including the General Assembly, who the question, the Union men of the State took a special train through to Memphis, gave color to these absurd rumors, and the whole city was thrown into a panio. About this time General Johnson's army from Bowlinggreeu entered the olty, pareing not passed through the fiery ordeal, and South, thus leaving the impression that no stand was to be made for the defense of has some out without the smell of treason stand was to be made for the defence of Nashville. The retreating army of Gen. Johnson continued its march, encamping by regiments at oon- and shown himself on all occasions to be well venient points outside of the city. Monday morning the drama opened on the city intensely excitlng. At the same time, considerable quantities were removed terday evening, and rose at the rate of three Evening came, and no gunboats, and no feet per hour until it got out of its natural Federal army from Kentucky. one of the finest drawbridges in the energy of the Mayor and city authorities who throughout this whole affair acted with a prudence, zeal and devotion to the city, which cannot be too highly commanded was inadequate to keep down the selfish and unprincipled spirit of mammon which run riot, grasping from the months and backs of suffering widows and orphane, the poor pittance of most and olothing which was left them as indemnity for month of toil with their needle, and the sacrifico of husbands, sons and brothers in defense of the Southern Confederacy. Through the efforts of the Mayor, however, a plan was adopted on Saturday, by which most if not all of these poor and unprotected creditors of the Government were fully secured by Quartermaster and Commissary stores.

Here was an entire week of panio and onfusion, during which millions of dollars' worth of property was lost to the Southern Confederacy and wantonly destroyed, alt of which might have been quietly and safely had the panio stricken leaders been able to maintain their equanimity in the face of a vague and unauthentic rumor that the enemy were near at hand. Comment upon such management is unnecessary in these columns-it can be heard.

On Tuesday, as we learn, the city of Clarksville was surrendered to Commodore Foote, of the Federal navy. The Commodore and staff were invited ou shore and hospitably entertained, after which he left in his gunboats, announcing that he would return on Wednesday and take formal poscession of the city; which he did, lesuing a very conciliatory preclamation to the panple. There are now some 5.000 soldiers at Clarksville, as we learn.

Through the efforts of the city authorities, something more like order was restored on Saturday. The distribution of stores was stopped, and every effort made to remove as much as possible to the depot, and have brought into camp three days ago, who were them carried off. Large quantities were thus removed. But the heavy rains in the ists, after they had a fight with them, in | meantime so swelled the water courses that which two of the robbers were killed and the railroad bridges gave way, and trans-three wounded. Editors Democrat-Gentlemen: Now that the rebels are almost driven from the soll of our State, the oivillaw will again resume its sway, and the oitizens be permitted to enjoy their future of peace and quietude, we naturally turn around and take a retrospective view and ask where we are and who shall, in the future, take charge of the Government of our State. In looking over the persons who will probably he called on to assume the position, I know of no man in the district better qualified and more deserving than Judge R. K. To the entire satisfaction of the people of this district he has discharged the duties of Circult Court Judge for the last ten years, and who, by his striot impartiality in his decisions has won golden opinions as a Judge, versed in the science of the law. When a majority of the people of this district. misled by the demagogues, Burnett, Thomp son, Tighlman & Co., went mad and conclu ded they would start out in search of their rights, Judge Williams stood firm and unyielding, and in consequence of his loyalty and devotion to his Government, brough down on his head the ourses of those with whom he had mixed and mingled for three years; yet, with the patriotism of hero he stemmed the tide, aud now, to-day, the light of truth, justice and mercy Is beginning to dawn on these benighted regions, and the fact is being exemplified to the deluded that we still have a government, founded on the rock of truth, and that the gates of secession nor hell Itself can prevail against it. Referred to the Committee of the Whole and made the special order for one week from next Tuesday.

Mr. Stevens sald, as considerable impatlence had been expressed by the public at the delay in reporting the bill, he desired to say that the Committee of Ways and Means did not obtain possession of the estimate and facts to enable them to judge time. That is an important position, and the how much revenue was necessary until the first week in January. When the sub committee completed and Means went over the bill carefully, artiole by article, until they adopted it as their unanimous report. He contended that magnanimity was the greatest virtue of viotors and that we should go forward with which are of immense strength, consisting of tiere upon tiers of batteries upon the river front, and a strong parapet and ditch, oovered by a thick shattis on the land side. The fortifications appear to have been evacuated hastily. They left a considerable quantity of ordnance and ordnance stores, a number of anchors, and the remainder of the chain once stretched over the river. besides a large supply of torpedoes. Desolation was visible everywhere. Huts, tents, and barraoke presented nothing but their biaokened remains, though the town was spared. A garrison was left in the work of

"Our oavairy from Paducah marched into olumbus yesterday, at 6 o'olock, P. M., driving before them the enemy's rear guard The flag of the Union is now floating over the boasted Gihratar of the West. "Major General." PORTLAND, March 4 -The following ad-Norwegian:

Rome, Feb. 20 .- The polloe have made nany arrests. The proclamation of the National Committee has been secretly posts ed up here. The committee hope for early success; but ocunsel patience. It is believed that Napoleon has given an

answer to the Pope that the French troops will not leave Rome. A popular manifestation was proposed to celebrate the anniversary of the capture of Gatta Numerous patrlots traverse the streets to prevent its taking place.

Berlin, Feb. 20 - The question between Pruseia and Austria is continually widening. The language of the Prussian and Austrian papers is daily more hostile. The agitation in Germany is increasing.

Austria, by her recent conduct, had lost much of her influence in Northern Ger-Paris, Feb. 21.—The Temps and other French journals demonstrate that amountch ial rostsration ln North America will only benefit Spain and the Spanish, monarch-

isl interests alone existing there. It is be lieved that the speech of Prince Napoleon on the address of the Senate, will express the real policy of the Emperor, on the Italian question. The following is a summary of the news

taken out by the City of New York: The Tuscarora left Gibraltar on the 15th instant for the Spanish waters. She had been watching the Sumpter, which still remained at Gibraitar, nnable to procure coal. In the the House of Commons, on the lith inst, the supplimentary estimate for the naval and military expedition in the Trent affair, amounting to £918,000 were moved and unanimously agreed to. In the debate on the subject, Mr. Bright strongly denounced the polluy of the Government. He eaid the money had been worse than thrown away. The threatening menaces were quite uncalled for. He gave Earl Russeil's first dispatch, which he said had more the appearace of the declaration of war, than the cantious demand for the just object which America could not fail to acoede to. He refuted the idea that the American Government was influenced by a mob, and argued that the interests of England were so bound up with America that it was in every respect inadvisable to infliot a sting that it might take centuries to remove.

Mr. Baxter endorsed the tone of the Government, but condemned the tone of the

Orders had been received at Sheerner to dismantle all gunboats prepared for commission under the American difficulty. The Daily News and Star publish the oorrespondence with Mr. Seward relative to the passage of British troops through the State of Maine. The latter journal accords great praise to Mr. Seward for his course n this respect.

The reading of the address to the Empeor of France had taken place in the Senate and debate commenced upon it on the 20th inst. The address regrets the sufferings Inflicted by American civil war on the trade and manufactures, but agrees with the Em peror that the friendly relations of the wo countries render neutrality incumbent, and believe that the quarrel will be all the shorter if not complicated by foreign lnfin-

FORTRESS MONBOR, March 8 .- Nothing as yet been heard of the released Union risoners. No flag of truce has passed netween Fort Monroe and Craney Island. General Wool has refused to permit any passengers to go South. The Constitution on her way up to Newport News was fired upon by the rebel boat, but not damaged. BALTIMORE, March 4 -The Maryland Legislature met in caucus last night and voted on the tenth ballot for Reverdy Johnson for U. S. Senator. He received 38 out of 72 votes. Senator Pierce received 80

rotes. The balance were scattering.

Boston, March 4 -The steam tug Boardman, of New York, arrived at Providencetown to-day, and reports that she spoke a fisherman who said that the frigate Vermont, on the 1st inst., was at anchor on George's bank with her masts cut away. SALT LAKE CITY, March 4 -At the Terri. torial election yesterday the vote was unan-imous for the State Constitution. Brigham Young was elected Governor and Heber C position.

WASHINGTON, Moret 6. - Secretary Welles tendary valued a dispatch dated Columbus, March 6, saying: Columbus is in our possession. Since our reconncissance of the 2d, the enemy evacuated in haste, leaving oulle a number of course of the same of the columbus of the columb

MUNFORDVILLE, March 3, 1862. Editors Democrat-Gentlemen : Not a few of the former oltizens of our county, who, seized with a panic at the news brought to them by refugees from above, of the eat-'emup-aliveativeness of Rousseau, fled with and behind the rebel army to Bowlinggreen, have returned home, having satisfied thembe a longer and harder job than was ana ticipated. Some again have come home for other "good and sufficient" reasons. One green, intending to proceed South when the Federals advanced; but, unfortunately in advance to herald his coming, and the consequence was that the first thing the were between him and Dixie. Being thus as long as safety would justify, before retreating. They wanted to get a sight of the before a crossing could be effected. Their steeds were saddled and held in readiness several hours before the locked-for arrival of the Federals, but not a whit too soon, for, at a moment when least expected, the advancing column hove in eight. Curiosity having been fully satisfied, our rebel friends vaulted into their saddles, and put spurs to their beasts just as the shells which Gen M. very unceremonionaly sent over to announce his arrival, began to explode around them. Two or more of the party dashing away at full speed, were soon beyond the range of the shells, and made their escape; but the gentleman in question happened to be mounted on an exceedingly intelligent male, and, though he whipped and spurred, coaxed and cursed, it was all to no purpose—his mnleship would not budge. You are traitors to every principle of so deeply wronged. I was gratified to see the resolution introduced into the Legislature by our reperesentative, instruction the committee on Military Affairs to Inquire into and report what legislation is necessary, in regard to slaves who have been permitted to escape and hide within the lines of the Federal army. I do not doubt but that the resolution will pass and such steps be taken as will secure the return of all such alaves. This demands attention-and prompt attention. By some means, and as speedily as possible, traitors must be made to know that they earnot, with impunity, defy the Constitution and the laws any more than rebels. Would it not be a good plan to colonize a few of them? Gather up all the free negross which now curse our land, and send them with Greeley & Co., and a few of the Southlable blessing to the country.
